

iBG Days 2017

THERAPEUTIC MAB ENGINEERING AND PRODUCTION WORKSHOP

PROGRAM

November 11th

08:00 - 09:00 Registration

09:00 - 09:10 Opening Ceremony

09:10 - 10:00 **Keynote Lecture: Cem Elbi, MD, PhD**

Past-Present-Future of Therapeutic mAbs

10:00 - 10:40 **Zehra Kaymakçalan, PhD**

Target Discovery and Strategies for Initial mAb Production

10:40 - 11:10 Coffee Break

11:10 - 11:50 **Sadettin Öztürk, PhD**

Overview of mAb Production Processes

11:50 - 12:30 **Sevim Duvar, PhD**

Current Strategies in Mammalian Cell Line Development

12:30 - 13:30 Lunch Break

13:30 - 14:10 **Sezen Ballı, MS PMP**

mAb Manufacturing Operations

14:10 - 14:50 **İnci Özdemir, PhD**

Cell Culture Process Development with a Host Cell Line Switch

14:50 - 15:30 **Sadettin Öztürk, PhD**

Downstream Bioprocessing, Formulation, and Fill/Finish Operations

15:30 - 16:10 **Valentina D'Atri, PhD**

Analytical Characterization of Therapeutic mAbs

16:10 - 16:40 Coffee Break

16:40 - 17:20 **Samet Yıldırım, MS PSM**

Next-Generation Manufacturing of Biopharmaceuticals

17:20 - 18:00 **Turkish Medicines and Medical Devices Agency (TMMDA)**

Current Practice Regulations (PIC/S, EMA and Turkey)

18:00 - 18:30 **Turkish Medicines and Medical Devices Agency (TMMDA)**

Marketing Authorization for Medicines

18:30 - 18:45 Exam and Evaluation

18:45 - 18:50 Closing Remarks

18:50 - 19:00 Presentation of Certificates

19:00 Cocktail
